INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the *Classified Directory* in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present volume. An *Educational Business Directory* is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

THE PUBLISHERS.

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

STATE TEACHERS' ASSOCIATION

MRS. GRACE DODGE, <i>President</i>	Boothbay
CLYDE RUSSELL, <i>Secretary</i>	Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the Union System of School Supervision. The towns and cities of the state, of which there are 500, are combined into groups by the State Commissioner of Education, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than seventy-five teachers. These are allowed to elect a Superintendent of Schools to serve that town or city alone.

SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. The schools of the state are chiefly under the direction of superintendents who give their full time to this work. Any town or city may elect a town superintendent or may combine with other towns in a supervisory district. The superintendents of these districts are elected by the local directors subject to approval by the State Board of Education.

NORTH CENTRAL COLLEGE is a liberal arts college, Christian, but not sectarian. It has the highest rating from the University of Illinois, the North Central Association of Colleges, and the Association of American Universities. It enrolls approximately 500 students from twenty states and several foreign countries. It is ideally located at Naperville, Illinois, on the Burlington Railroad and U.S. Route 34 and Illinois 65, twenty-five miles west of Chicago. Its equipment is superior: a million-dollar endowment, 50 acres of campus and playing fields, fine library, well-equipped science hall, beautiful and commodious chapel-music building, attractive dormitories, and one of the finest physical education buildings in the middle west.

North Central offers a standard B.A. course with majors in twenty departments; semi-professional four-year courses in Commerce and Physical Education; courses for Teachers, entitling graduates to certificates in Illinois and other states; pre-professional, two to four-year courses of high grade in Medicine, Dentistry, Law, Theology, and Engineering, entitling students to a B.A. degree after three years at North Central and one year at the professional school, thus saving one year; standard courses in Music, leading to degrees of Bachelor of Music and Bachelor of Music Education.

Expenses are exceptionally moderate. There are scholarships for first honor graduates of high schools, ministers and ministers' children, and children of World War veterans.

North Central welcomes especially students of superior ability.

ONE YEAR FROM TODAY

What Will YOU Be Earning?

This may be the most important year in your life! Your whole future is apt to depend on how you take advantage of present business changes.

New conditions are opening up new jobs, creating unusual opportunities, bringing back prosperity. But that does not insure prosperity for you. Only you can insure that.

For months—maybe years—employers will be able to pick and choose out of those now unemployed or dissatisfied with their work and pay. Naturally they will pick the men with most preparation and ability.

You should—you must—make yourself quickly more valuable—to protect what you have and to insure getting your share of the promotions and pay raises. It is being done by OTHERS—it can be done by YOU!

Ask us to send you full details about our new spare time training, and to explain how it prepares you to meet today's demands and opportunities also about our practical salary-increasing plan. If you really are in earnest, you should investigate at once. Pick your field from those listed below, add your name and address, and mail to our Dep't 208.

BOOKS

School boards and teachers are convinced of the advisability of providing for pupils' supplementary reading, and the number of adequate school libraries is constantly increasing. New books must be added to these libraries regularly if they are to be popular with the children. Boys and girls should be encouraged to think of books as part of the joy of life, and reading in no sense a duty.

DEODORIZERS

This equipment is a means of destroying bad odors in a room or building. Some of the types actually spray a deodorizing chemical into the air, while others allow the material to evaporate and mix with the air in the room. They are especially valuable in large school assembly rooms where there is danger of the air becoming stale.

WHAT IS IT WORTH TO YOU..

TO know that the stage requirements of your auditorium will be thoroughly understood; that the same genius which created practically all the outstanding developments in stage equipment and rigging during the last quarter of a century is applied to the problem of originating equipment for your individual stage.

AND to know also that all equipment installed is guaranteed and will maintain its initial efficiency throughout the period of its use.

THE value of such service cannot be measured or compared. Yet, it costs nothing. For in PETER CLARK, INC., installations you pay only for the equipment and the cost of installing it.

NORTON
DOOR CLOSERS**

Because so much importance is attached to orderly, quiet, trouble free control of doors, educational institutions should have the most efficient closers.

The Norton positive control assures no surge, slam or jar—the Rack and Pinion principle engineers perfect control and silent closing where desired.

The Norton lubricating system is guaranteed against leakage. The Norton packing nut (an exclusive feature) permits the use of mineral oil, the correct lubricant for working parts.

Norton Positive Control reduces strain on hinges and doors—a decided saving in time and labor.

GUARANTEE—Norton Door Closers are guaranteed.

SERVICE—Norton engineers and designers offer their recommendations without obligation.

*Better Foods
for Young
America*

Today, school cafeteria buyers have found that good food costs less, especially in feeding children and teenagers. There is no waste in serving food of the same fine quality that is featured in the leading hotels and restaurants. There is no extra cost for the assurance gained by serving food of the same purity as that served by the most exacting hospital.

Sexton foods are prepared exclusively for those who serve many people each day. This specialization makes dealing at Sexton's pleasant, convenient and satisfying. Sixty-three years of dependable service are back of every purchase.

A Sexton salesman calls in your town at least every other week. If he has not been in to see you, please drop us a card and we will have him call.

THE DOLLAR YOU RECEIVE

Those successful in serving food to the public have almost universally adopted some method of food cost accounting and cost control. Under a common method, the daily, weekly or monthly total receipts are compared with the actual cost of the food used in the preparation of the meals served (*in the line used*). If the receipts amount to \$100.00 and the amount spent for food is \$50.00, the food cost is 50%. After determining the total food cost it is customary to separate this item into the divisions which go to make up this cost by finding the amount expended for each item and its percentage of the total cost. A simple formula for guidance of those who have no definite system is the division illustrated above.

Invariably a careful analysis will disclose the value of using a better quality in developing the appeal of your lower cost items.

51%

A TRUE STORY

A prominent Chicago hotel employed a new steward and instructed him that they wished the food cost reduced from 57% to 51%. The new steward immediately started to purchase higher priced foods! The management was confounded because they found their food cost lowered the desired amount. The guests were delighted by the improved food. The hotel found an additional substantial saving in the cost of hauling away the wasted food left on plates.

Schoolrooms

For the interior lighting of schoolrooms, the Benjamin "Type 79" Glassteel Diffuser is admirably adapted. It provides excellent distribution of light for general illumination, and is beautifully designed and constructed.

Night photo of the Ashland College athletic field, Ashland, Ohio, lighted with Benjamin Concentrating Type High Mounting Units. Notice remarkably uniform level of illumination throughout the playing area.

LIKE miniature golf, tennis, baseball, etc., high school football has entered the realm of nighttime sports, and now parents, too, can attend the games.

Philosophically, this development in high school athletic games means more enjoyment for more people, since the leisure hours of most adults are confined to the evening.

Installation of equipment is merely a matter of days. The cost of current is negligible, and Benjamin equipment pays for itself in a short time by the increased attendance.

Benjamin equipment meets the needs of the various types of athletic fields. Write for data sheets.

Request also a copy of "Lighting of Night Football Playing Fields," by Russell L. Guin, principal of the Westville, Ill., high school.

LATHES

Lathes for school shops are of two types; those for metal working and those used in the woodworking courses. The metal-working lathes used by schools include the speed lathe, the engine lathe, and the turret lathe. The engine lathe is probably the most used since all work such as turning and screw cutting is done on it. The turret lathe which is used for multiple operation work will be found only in schools teaching advanced machine shop courses. The speed lathe is used almost exclusively for small operations such as polishing, etc.

CRANE VALVES

2500 Pounds

School men should consider pennies by saving vs. dollars by economy

It is shortsighted to lavish equipment on one department at the expense of another. But how much economy will plumbing and heating stand? Certainly by purchasing inferior materials efficiency is not only lowered, but the health of children is endangered. Then, too, it is an experiment that is paid for by increased maintenances, costly repairs and expensive replacements.

Crane engineers have studied this problem. They are prepared to offer a solution to it . . . to lower the cost of plumbing and heating systems without endangering either efficiency or the building budget. Already they have done it for numberless schools throughout the country. If you will drop into the nearest Crane Exhibit Rooms, you will be shown how they can do it for you.

FREE! Expert Art Service In Preparing Your ANNUAL COVER

You place yourself under no obligation by taking advantage of Becktold Service. It shows how your cover will look *before* you spend a cent. A card will bring you actual samples of Becktold Covers as used by other schools and colleges, also a sketch blank on which

to present ideas for your own cover. Our artists will then make up a finished drawing, showing how your cover will look when completed. Any design, picture, seal, etc., or any combination of colors may be incorporated in the cover. Write us today for this service.

PIANOS

Pianos are a necessary part of all school equipment, every school building being provided with one or more instruments. Schools having an auditorium should provide a grand piano. In schools where piano lessons are given, each practice room must have an instrument. In the grade schools a special small sized piano which can be moved from room to room is often used. This piano is also low enough that the teacher can see over the top of it and direct the singing of the class while playing.

PHOTO-MURALS For Unique Wall Decoration

The science and art of photography have created a new, beautiful and practical form of wall ornamentation that is particularly adaptable for the decoration of schools and colleges.

Anything that can be photographed can be made the subject of a photo-mural—exterior and panoramic views of your buildings and grounds, original drawings, old prints, etc.

Photo-mural decoration brings to you a new medium of interior decoration, available in sepia or hand colored in oils, that creates atmosphere and will harmonize with your established decorative scheme.

Photo-murals make admirable and artistic memorials of distinguished service. Suggest them to your friends and alumni.

The Copley Prints

are particularly adaptable to this type of decoration such as Abbey's Holy Grail, symbolizing the never-ending crusade of civilization for the Triumph of Right over Evil.

PRINTING OUTFITS—SCHOOL

The teaching of printing in schools as part of their vocational work has met with much favor. In addition to its vocational value, printing teaches the use of punctuation marks, the making of proper margins, the use of good English, correct spelling, capitalization, and indentation in an accurate manner. School printing outfits are designed for the smallest schools to largest universities.

PROJECTORS, SLIDEFILM

Small, portable projection units for showing still pictures on a projection screen. These use 35-mm film in the form of filmstrips (single frame and/or double frame), 2 x 2 miniature slides, or a combination of all these. The wattage of the projector lamp determines the brilliance of the image and the size of the audience that can be served. Various focal length lenses determine the size of the image on the screen. The films are either in rolls, or cut and bound in small slides which are inserted in various types of horizontal carriers and semi-automatic slide changers. See, also, Stereopticons.

STATUARY

Statuary furnishes educational and illustrative material for several departments, from ancient history to art, and it serves a practical use when given to the school as a memorial from classes and organizations. Very good reproductions of well-known "originals" are furnished in marble, bronze, or composition. When determining the material from which the statue shall be made, purchasers should consider the usage to which it will be put, whether it will be a feature of the exterior or interior of the school building, and whether it will be used as subject matter for art or other classes.

Jacobsen 4-Acre Power Lawn Mower

Beautiful School Lawns At Lower Cost

WELL kept school lawns, buildings and equipment are important in moulding the ideals and habits of the student. There is a Jacobsen model for every lawn, large or small.

The Jacobsen 4-Acre Heavy Duty Mower is used by the largest colleges and universities. With or without riding sulky it will cover more ground per day than any other mower of same size, and with a lower upkeep cost than any other walking-type power mower. It has a 24-inch reel, an enclosed gear drive, auto-type differential, separate clutch control

of traction and cutting unit, self-sharpening reel and other outstanding refinements. A Sickle-Bar clipping attachment may be had which clips dandelions and other weeds at the same time the lawn is mowed.

The "Junior" Power Mower is a quality Jacobsen Product with a 19-inch cutting reel. Suitable for moderately large lawns—particularly efficient on terraces.

WASTE BASKETS

School equipment and furnishings naturally receive hard usage, and the waste basket probably suffers most of all. They should therefore be made of wear-resisting material, and constructed to withstand the hardest usage. Wire, steel, vulcanized fibre, and like materials are used.

National Vulcanized Fibre Co.,
Wilmington, Del.

TRADE INDEX

WASTE PAPER BUYERS

Every school accumulates large quantities of waste paper which may be profitably baled and sold. See, also, Paper Balers.

WATER COLORS

Permanence of hue, evenness of texture, and smoothness in application on paper are some of the qualities essential for good water colors. They are furnished for school use in either the cake form, or the tube containers. See, also, Art Materials; also, Drawing Materials.

WINDOW SHADES

In the lighting of the schoolroom, much care should be exercised in the control of daylight through the use of proper shades. Shade cloth should be used which will tone the light to give eye-comfort, and bar out injurious glare. A good shade cloth will not crack, wrinkle, or show pin holes with usage.
